## **DETAILED ACTION**

## Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1 5, drawn to a method of controlling birefringence in a rib waveguide structure, classified in class 438, subclass 31.
- II. Claims 6 10, drawn to an optical device including an array waveguide grating and an array of rib waveguide structures, classified in class 385, subclass 132.
- III. Claims 11-12, drawn to an integrated optical device, classified in class 385, subclass 14.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions Group I, claims 1-5, recites a controlling birefringence in a rib waveguide where Group II, claims 6-10, recites an optical device having an array waveguide grating and Group III, claims 11-12, recites an optical integrated device.

Art Unit: 2874

Since these distinct inventions have acquired a separate status in the art and since the fields of search are not coextensive, restriction for examination purposes is proper. Accordingly, applicant is required to make a provisional election for further prosecution of one of the inventions identified as I, II and III above.

Any transversal of the requirement for restriction must accompany the response to this action giving full reasons as required for any reconsideration under CFR 1.143.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed.

A telephone call was made to Mr. Taska Andrew on January 28,2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is given 30 days from the date of this letter to provide the election, as indicated above so as to avoid the question of abandonment.

Any inquiry concerning this communication should be directed to Examiner Akm Enayet Ullah at telephone number 571-272-2361.
